“I’ve been fortunate to be an IGS Energy employee since September 2006. Even through tough economic times, this company has experienced tremendous growth and so has my personal career. I’ve always valued the security of working for such a financially sound company, but the unique ‘family’ culture is what keeps me **excited to come to work every day.**”

“I’ve been with IGS Energy since May 2010, and in this short amount of time I have seen this company grow exponentially. Even with all the growth, IGS Energy has remained committed to the community and its employees, **making this a great place for a career.**”

“I’ve worked for small, family-owned companies as well as large corporations. I’ve even owned my own business. I have to say that working for IGS Energy has thus far been the most fulfilling in my 20+ year career. Not only am I working for a successful, profitable company; I am working for a company that fosters a professional and stimulating environment, one in which **I can make a difference.**”

## POWER TO THE PEOPLE

IGS Energy fueled a revolution with the idea that having a choice makes the energy industry better. By adding competition to the deregulated natural gas and electricity markets, we're able to supply energy to our customers at a lower rate.
